## [T-ALL with TEL/AML1 Translocation, Aberrant Expression of CD19 and 33: Case Report and Literature Review](#)

Published On: December 14, 2016 | Pages: 001 - 004

Author(s): Kave Jasseb, Maria Kavianpour, Javad Mohammadi Asl, Zahra Shahpouri Arani, Vahid Fallah Azad, Mansoureh Haghghi, Najmaldin Saki\*

We herewith introduce a 9-year-old boy presenting with leukocytosis, anemia and high lymphoblast count who had a pale complexion as well as weight loss. His cytogenetic analysis revealed aberrant chromosomal rearrangements in different clonal populations harboring 46XY karyotype with t (12; 21) (p12; q22), which was confirmed by DNA sequencing. ...
