What is the best way to measure blood pressure?

Published On: March 20, 2021 | Pages: 001 - 003

Author(s): Fernando Nobre* and Décio Mion Júnior

Since Scipiano Riva-Rocci [1] created the device to measure Blood Pressure (BP), more than a century has passed with gains in knowledge of this way of assessing BP. Currently, the methods for assessing blood pressure in the 24 hours using devices capable of making these records are well established [2]. ...
