[Professionalism in patient care: Patient's rights and ethics in the United States of America \(USA\)](#)

Published On: June 13, 2020 | Pages: 030 - 033

Author(s): Afolami (Fagorala) Omolayo*

Introduction: Professionalism as one of the core competencies in health care service is addressed from a patient's point of view. This paper covers the rights of patients and the ethical obligations of health care workers to ensure patient's satisfaction. ...

[Experience of psychoactive substance use in patients with psychiatric disorders](#)

Published On: March 21, 2020 | Pages: 001 - 012

Author(s): Barbara Gouget-Para*, Alice Deschenau, Jean-Charles Leblanc, Armelle Seiler, Fathia Djellil, Valérie Cerboneschi and Muriel Lascaux

A dual pathology is the coexistence of a psychiatric disorder and an addiction in the same patient. Between 30 and 50% of patients currently admitted to psychiatry in Europe would suffer from a dual pathology. The interaction between two mental illnesses can lead to a different clinical picture of the clinical pictures of each of the pathologies taken separately and m ...

[Psychotic spectrum disorders: Definitions, classifications, neural correlates and](#)

[clinical profiles](#)

Published On: December 31, 2020 | Pages: 070 - 084

Author(s): Giulio Perrotta*

The psychotic spectrum is the category that groups together a series of disorders linked to a symptomatology in which we witness the fragmentation of the plane of reality until it is completely broken. According to the DSM-V nosography, the disorders under examination are schizophrenia, delusional disorder, paranoid disorder, schizoid disorder, schizotypic disorder, s ...

[“Perrotta Integrative Clinical Interview \(PICI-1\)”: Psychodiagnostic evidence and clinical profiles in relation to the MMPI-II](#)

Published On: December 30, 2020 | Pages: 062 - 069

Author(s): Giulio Perrotta*

Purpose: In order to study in depth the paraphiliac universe of the patient, avoiding diagnostic errors in terms of sexuality, sexual fantasies and disorders codified by the DSM-V, this research work focused on the importance of the exact identification of relevant sexual behaviours, in order to facilitate the relationship with the patient and the therapeutic pathway. ...

[**An experimental study targeting N-methyl-D-aspartate receptor in depression; beyond ketamine**](#)

Published On: December 15, 2020 | Pages: 057 - 061

Author(s): Salim Sheikh, Pankaj Sonone, Chakar Dhar Tripathi, Veena Verma and Bushra Ahmed Karim*

Objective: Despite the availability of vast group of drugs, treatment of depression still remains unsatisfactory. Serious adverse effects of anti-depressants lead to early withdrawal from treatment. One more important concern is the therapeutic lag of nearly 3-4 weeks. Therefore, newer targets for drugs with good safety profile, rapid onset of action and with substant ...

[**Alien Abduction Experience: Definition, neurobiological profiles, clinical contexts and therapeutic approaches**](#)

Published On: June 04, 2020 | Pages: 025 - 029

Author(s): Giulio Perrotta*

Starting from the general concept of "alien abduction experience", the present work focuses on the essential aspects of the disorder defining the clinical and diagnostic contexts, laying the foundations for correct differential diagnosis, without neglecting the neural characteristics elaborated in the scientific community. The discussion concludes with the best therap ...

[**Review and Analysis of mental health reforms in several countries: Implementation, comparison and future challenges**](#)

Published On: March 31, 2020 | Pages: 013 - 024

Author(s): Avital Alfandari Cohen, Racheli Magnezi* and Orly Weinstein

Mental health disorders affect people in all societies. In the past thirty years, countries have launched mental health program reforms to care for people affected by mental disorders, mental well-being and protection of human rights. This

review presents a wide range of mental health reforms conducted in different countries, compares barriers, present trends for the ...

[First manic episode in 14-year-old adolescent during COVID-19 pandemic lockdown measures: A case report](#)

Published On: July 02, 2020 | Pages: 034 - 036

Author(s): Simone Marchini*, Ode Van Ormelingen and Marie Delhayé

The authors describe a 14-year-old adolescent presenting a first manic episode begun during COVID-19 lockdown measures. The patient was experiencing extreme psychological discomfort about the lockdown measures. Family environment was described as stressful and freedom limitation perceived as extremely oppressive. The inpatient care and pharmacological intervention all ...

Cuckolding and Troilism: definitions, relational and clinical contexts, emotional and sexual aspects, and neurobiological profiles. A complete review and investigation into the borderline forms of the relationship: Open Couples, Polygamy, Polyamory

Published On: July 08, 2020 | Pages: 037 - 042

Author(s): Giulio Perrotta*

Starting from the concept of “cuckold” and having placed the substantial differences with the “troilism”, despite the terminological error committed by almost all the researchers who consider these two terms of synonyms, we proceeded to analyze the clinical, neurobiological and relational profiles, to then investigate the borderline forms of troilism: Open couples, po ...
