[Mass media information can facilitate early diagnose of hereditary angioedema: Case series study](#)

Published On: September 14, 2018 | Pages: 019 - 022

Author(s): Isao Ohsawa*, Daisuke Honda, Yuya Nakamura, Hiromichi Gotoh, Yoshikazu Goto, Yusuke Suzuki and Yasuhiko Tomino

Background: A patient's motivation for consulting a physician is paramount to the first steps of achieving an early diagnosis of hereditary angioedema (HAE). Understanding what triggers this motivation can help in the design of strategies to increase the number of visits to a specialist physician following early symptoms of HAE. The aim of the present study was to ide ...

[The Role of Dr. Colonel Vance H. Marchbanks in developing an oxygen delivery system: A “Forgotten First” in Aviation and Aerospace](#)

Published On: June 30, 2018 | Pages: 016 - 018

Author(s): L Ray Matthews*, Zellie Rainey Orr, Latasha Oaks, Omar K Danner, Kahdi F Udobi, Assad Taha, Jonathan Nguyen, Kenneth L Wilson, Ronald Hoard and Ed W Childs

In our series of unsung or forgotten medical heroes, we first published a manuscript on Alvin Blunt, Jr, M.D. who was the first African American MASH physician in the Korean War. Dr. Kenneth L. Wilson's manuscript changed United States military history. Our second manuscript in our series, Medical Miracle in Indianola, Mississippi: The Untold Story of Dr. Clinton Batt ...
