[Endoscopic removal of bullet lodged in nasal roof](#)

Published On: August 16, 2019 | Pages: 029 - 031

Author(s): Vanitha Palanisamy* and Prepageran Narayanan

Cases of survival after a penetrating firearm injury to the head are very uncommon. In cases where the bullet does not exit the head, it can be lodged anywhere in the cavities of the skull leading to fatal consequences. This case report examines a rare case of a penetrating firearm injury to the face where the victim survived and the bullet was discovered to be l ...
