[Non-Surgical management with Intra-Arterial Concurrent Chemo Radio Therapy \(IACCRT\) can be a definitive organ preservation treatment for buccal cancer patient](#)

Published On: January 06, 2023 | Pages: 001 - 004

Author(s): Andrew Yau-Wah Young*, Cheng-Yo Yen and Chil-Hsin Hung

Conventional Head and Neck cancer treatment with primary surgical intervention is a relatively suffering manipulation because of causing severe facial deformity, and mastication malfunction, and resulted in a very poor quality of life for the patients afterward. And post-operation adjuvant therapy with combined modality treatment with Concurrent Chemo-Radio Therapy (C ...

[Pharmacogenetic application in a patient diagnosed with Schizophrenia and OCD: A case report](#)

Published On: March 30, 2023 | Pages: 008 - 012

Author(s): pek Yüksel, Tayfun Gözler, Iknur Bozkurt, Korkut Ulucan* and Nevzat Tarhan

Introduction: The efficiency of psychiatric therapy depends on various factors and drug metabolism is one of them. The liver plays a significant role in drug metabolism through the P450 enzyme systems. However, pharmacogenetics aims to assist clinicians in determining the effectiveness of a particular drug and minimizing potential side effects. Case report: Here, we ...

[A case of extremity over-exposure and regulatory compliance](#)

Published On: March 21, 2023 | Pages: 005 - 007

Author(s): Hoyt J Burdick*, Tina Shoemaker, Nancy Godby and James Norweck

During a routine NRC inspection, a review of historical occupational dosimetry monitoring data for interventional radiology physician AUs was questioned regarding unexpectedly low results. This was interpreted to be an indicator of noncompliance with the wearing of occupational dose monitoring devices and, therefore, required occupation dose reconstructions in order t ...
