[A new paradigm is needed to guide the utility of functional electrical stimulation](#)

[in rehabilitation medicine](#)

Published On: August 29, 2020 | Pages: 045 - 048

Author(s): Gad Alon*

Back in 2006, an invited commentary raised the question “are we asking clinically relevant questions”? The commentary referenced an application of electrical stimulation in a clinical trial [1]. This question regarding Neuromuscular Electrical Stimulation (NMES) and Functional Electrical Stimulation (FES) is as relevant in 2020. Based on the premise and presumption th ...
