[\*\*Do we really need nutraceutical liver support? Experimental effectiveness, risks and proven clinical benefits\*\*](#)

Published On: March 10, 2021 | Pages: 001 - 004

Author(s): Francesco Marotta\*, Aldo Lorenzetti, Saida Rasulova, Baskar Balakrishnan, Anna Cabeca and Fang HE

Liver is the largest and one of the most metabolically active organ in the body. With a crucial role in the clearance of toxins such as aflatoxins, microbes and metabolic by-products. This constant exposure to inner and environmental harmful substances may be potentially overwhelmed and be affected by a degree of liver damage ranging from hepatitis and Non-Alcoholic F ...
