[The analgesic effect of tramadol versus morphine in the treatment of cancer pain in National Cancer Institute, University of Gezira, Sudan \(2018\)](#)

Published On: June 07, 2021 | Pages: 012 - 019

Author(s): Ghazi Gasmalla Mohamed Ibrahim*, Khalid Abbas Owish and Mohammed Suliman Zaroug

Cancer pain treatment following the World Health Organization guidelines is effective and feasible. However, the evidence supporting the use of opioids for mild to moderate pain on the Second step of the analgesic ladder is widely discussed. The present assessment compares the efficacy and safety of the use of tramadol in comparison to morphine in the treatment of can ...
